

Intelligent Krebs Viscometer (Auto)

■ Introduction:

BEVS 1112U is an automatic viscometer with advanced touch screen control, highly suitable for measuring the non-newtonian fluid such as coating, paint, adhesives, pulp, printing ink etc.

■ Features:

- ◆ Easy operation
- ◆ Humanization design
- ◆ Touch screen control
- ◆ Units: KU, G, cP simultaneously display
- ◆ Preset start test time and duration
- ◆ Real-time display graph with viscosity and time
- ◆ Real-time display environment temperature
- ◆ Measure sample temperature
- ◆ Output measurement report

■ Standard:

ASTM D562, D856

■ Technical info:

Range	40-141KU 27-5274cP 32-1099g
Resolution	0.1KU 1g 5cP
Accuracy	± 1% (Full Scale)
Repeatability	± 0.5% (Full Scale)
Speed	200rpm ±1rpm
Power	Max. 18W
Power supply	100-250V/50-60Hz

■ Application:

Coating industry, food industry, pharmaceutical industry, automotive industry, laboratory

■ Order info:

BEVS 1122U Intelligent Krebs Viscometer (Auto)
